HELP WITH NHS HEALTH COSTS

Need help with paying these charges or getting an optical voucher? Read leaflet [HC11 – Help with health costs](#). You can get a copy at Jobcentre Plus offices, NHS hospitals or ask your NHS practitioner. Or go to www.dh.gov.uk/helpwithhealthcosts.

TAX CREDIT EXEMPTIONS

Working Tax Credit (WTC) Child Tax Credit (CTC)

You can mark NHS treatment forms to say you are entitled to full help with health costs (for example, free prescriptions) because you are entitled to a tax credit exemption certificate if:

- your tax credit award notice shows your gross annual income is £15,050 or less³ **and** one of the following also applies:
 - you get both WTC and CTC, or
 - you get WTC on its own which includes a disability element or severe disability element, or
 - you get CTC on its own because you are not eligible for WTC.

³ The £15,050 limit applies from 1 April 2007.

What to do before your tax credit exemption certificate arrives

If you are entitled to help with NHS health costs and you need treatment before your certificate arrives, you can sign NHS treatment forms to say you don't have to pay. Tick the box to say you don't have to pay because you are "entitled to, or named on, an NHS Tax Credit Exemption Certificate". Take your tax credit award when you go for treatment as evidence of entitlement.

THE PENALTY CHARGE

The penalty charge is a civil fine and may be imposed where a patient is found to have wrongly claimed total or partial help with health costs. The penalty charge is 5 times the amount owed, up to a maximum of a £100. This is in addition to the original charge. For example:

Prescriptions penalty charge

A patient who wrongly claims free prescription items when the charge is £13.70 will have to pay:

• The original charge of	£13.70
• A penalty charge of	£68.50
• TOTAL	£82.20

If you are entitled to help you won't have to pay penalty charges – this won't affect you.

For further information about penalty charges, go to www.cfsms.nhs.uk.

NHS DENTAL TREATMENT from 1 April 2007

If you normally pay for NHS dental treatment, there will be three standard charges.

The amount you pay will depend on the treatment you need to keep your teeth and gums healthy.

You will pay one of the three charges below:

- This charge will include an examination, diagnosis and preventive care. If necessary this will include X-rays, scale and polish and planning for further treatment. Urgent and out-of-hours care will also cost £15.90. £15.90
- This charge includes all necessary treatment covered by the £15.90 charge PLUS additional treatment such as fillings, root canal treatments or extractions. £43.60
- This charge includes all necessary treatment covered by the £15.90 and £43.60 charges PLUS more complex procedures such as crowns, dentures or bridges. £194.00

You will only pay one charge even if you need to visit more than once to complete a course of treatment.

If you are referred to another dentist, you will still pay one charge (to the dentist who refers you).

If you need more treatment at the same charge level (e.g. an additional filling) within two months of seeing your dentist, this will be free of charge.

Example courses of treatment

- Examination, diagnosis and preventive advice. £15.90
- Examination, diagnosis and preventive advice **and** one or more fillings. £43.60
- Examination, diagnosis and preventive advice, one or more fillings **and** one or more crowns. £194.00

Note: You should ask your dentist how much your individual treatment plan will cost. The dental practice may ask you to pay before beginning your treatment.

There will be no charge if a dentist assesses that he only needs to issue a prescription², or if he removes stitches from a previous procedure.

² Usual prescription charges apply when getting the prescription dispensed.

Your dentist should display a poster about NHS charges in the waiting room.
